ARE NOT FAVORED

INTER STATE COMMERCE COMMISSION AGAINST IT.

Present Facts and Figures Which Go to Show that Government Ownership of Railways Is Not Desirable are Quoted to Substantiate That Position—The Pettigrew Report.

WASHINGTON, Sept. 20.—In compliance with a senate resolution introduced by Senator Pettigrew, the interstate commerce commission has completed a statement regarding the ownership of railroads by foreign governments. This is summarized as follows:

"It appears that ten countries do not own or operate railways—namely, Columbia, Great Britain and Ireland, Mexico, Paraguay, Peru, Spain, Switzerland, Turkey, United States and Uruguay.

"The following governments own and operate railways: Argentina, Australia, Austria-Hungary, Belgium, Brazil, Canada, Cape of Good Hope, Chili, Denmark, France, Germany, Guatemala, India, Japan, Norway, Portugal, Russia and Sweden—eighteen.

"The following governments own part of their railways but do not operate any, leasing all the present mileage to private companies: Greece, Holland and Italy—three."

"The relative rates charged for freight and passenger service on the government owned railroads and the other facts cited in connection with such roads are calculated to afford little encouragement to the advocates of government ownership.

"The average charges per ton per mile are as follows: In Great Britain, 2.80 cents; in France, 2.20 cents; in Germany, 1.64 cents, and in the United States, 1 cent.

"The interest on capital invested in the several countries is as follows: United Kingdom, 4.1 per cent; France, 3.8 per cent; Germany, 5.1 per cent; Russia, 5.3 per cent; Austria, 3.1 per cent; Belgium, 4.6 per cent; United States, 3.1 per cent.

"The systems of operations of the railroads in different countries are indicated as follows:

"In Austria about 4 per cent of the railway mileage is owned by the state, and about 73 per cent is operated by the state. Upon the expiration of charters, not exceeding ninety years, the lines, lands and buildings of the companies pass to the government, but the equipment remains the property of the private owners. Before a railway is opened it must be approved by the minister of commerce. The tariffs of state roads are fixed by the government; those of the companies are subject to revision by the government every three years, and the government has power to reduce rates, if the net earnings exceed 15 per cent on capital.

"In Canada about one-tenth of the mileage of about 15,000 miles is owned and controlled and operated by the government. For the year of 1892 the operation of the government lines resulted in a loss of over \$600,000.

"At the present time by far the larger portion (about five-sixths) of the French railway system is operated by private companies, each company serving a definite territory and being comparatively free from the competition of other lines. But the railroad properties are ultimately to become the property of the government. This system is a mixed one of state and private ownership.

"In Germany nearly 90 per cent of the railway mileage is owned by the government. Under the law the government is required to manage the railways in the interest of general traffic. It may use the construction and equipment of roads and enforce uniform traffic and police regulations.

"In Russia the government is stated to own and operate about 40 per cent of the railway mileage. Nearly all of the railways owned by private companies have received subsidies from the government."

The interstate commerce commission disclaims any original investigation on this subject, the report being compiled from existing sources of information.

PLANNED BY M'DANIEL.

Wounded Train Robber Says the Informer Coaxed the Others into the Plot.

MEMPHIS, Mo., Sept. 20.—The two captured train robbers, Lincoln Overfield and Charles Abrams, are in jail here. Overfield, beyond admitting that he was present at the scene of the attempted robbery, refuses to talk.

He lies in his bed with his head covered and crying most of the time. Charles Abrams, the wounded robber, talks more freely, and his statement, if true, places Informer McDaniel in an unenviable light. He says that McDaniel was the one to plan the robbery and coaxed the others into it. He says the first proposition came from McDaniel, who had to use considerable persuasion to get the others into the enterprise. Abrams is no better to day and there is little hope of his recovery.

The grand jury, which was in session all day, voted two indictments against the guilty twain, one for attempted robbery, another for assault with intent to kill, only the latter being turned into court by the district attorney. There can not be any other indictments returned until next Feb.

The platform renews all the republican pledges and scores the democratic national administration for "lack of ability to successfully administer the government" and "invites the business men, manufacturers, mechanics and farmers of Connecticut to pass judgment by their ballots upon a democratic tariff bill conceived in sectionalism and brought forth in scandal and justly denounced as a monument of party perfidy and party dishonor."

The tariff and money questions are referred to as follows: "The republican party now, as always, the party of honest money, holds that American silver as well as American gold should be used as standard money under such international agreements as will insure the maintenance of a parity of values."

J. T. O'Brien of North Platte presented a great many figures from original surveys showing the acreage of lands now useless because of a lack of moisture. He thought there was enough water in the Platte, Loup, Republican and Niobrara rivers to irrigate 25,000,000 of the 36,000,000 acres of arid lands in Nebraska. He thought artesian wells too expensive and not at all reliable.

OHIO DEMOCRATS

OWNED BY BRICE

CALVIN PULLED THE STRINGS AT COLUMBUS.

Thereby Causing the Puppets to Dance Merrily Up and Down and Say "Cuckoo"—Silverites Succeed in Getting a "16 to 1" Plank in the Platform.

COLUMBUS, Ohio, Sept. 20.—The democratic state convention met yesterday with Frank Hurd of Toledo as temporary chairman. In sounding the keynotes of Ohio democrats, Mr. Hurd said:

My fellow democrats, I congratulate you upon assembling in state convention in the first flushes of the dawn of a new day of prosperity to the United States. Through Red seas the business men of this country have passed until hope began to fail and despair had seized the managers of nearly every enterprise in the land. For more than twenty years tariff reformers had predicted that such a condition must inevitably result from protection. Restriction of the market resulted in overproduction of domestic goods. Not for this condition was the democratic party in any respect responsible. Whatever disturbance comes through reforms must be charged against the wrongs which make reforms necessary, and not against the reforms themselves.

Coming to the division in the party on the tariff question, Mr. Hurd said: "First and foremost, I give credit to Grover Cleveland and John G. Carlisle. Free wool is worth more to tariff reform than all other provisions of the law put together. To their credit, be it said, the Ohio democratic members in the house stood firm, every one voting for free wool. When, by one word, he could have defeated free wool, more credit is due Senator Brice than to any other influence, or to all other influences combined. The different schedules will require further adjustment in the interest of free trade.

The Chicago platform declared that protection is unconstitutional and robbery. If that declaration be true, our mission cannot be ended while a protective statute remains.

Mr. Hurd closed by saying he was opposed to the American Protective association because it was a secret political society.

The platform praises "the efficient, economical and honest administration of President Cleveland," declares "protection a fraud, and while recognizing the benefit of the reduction of duties on imports just made by congress, favors such further reduction as can be made, to the end that purely protective duties be abolished," declares that the McKinley law caused the business depression, reduced the revenue and led to the necessity for issuing more government bonds. Business failures, strikes, low wages, low prices for farm products are enumerated as the result of the McKinley law. Under the new tariff business is declared to be reviving.

"We dissent," says one plank, "from the President's views, construction and treatment of the silver question, and, therefore believe that silver should be restored to the position it occupied as money prior to its demonetization by the republican party, and to that end we favor the unlimited coinage of silver at the legal ratio of 16 to 1 and with equal legal tender powers."

The platform denounces the last general assembly of Ohio, Gov. McKinley's administration and the American Protective association.

The following is the full ticket nominated: Secretary of state, Milton Turner; judge of supreme court, J. D. Ermiston; member of the board of public works, Harry K. Keffer; state commissioner of common schools, Dr. J. A. Leech.

The convention has adjourned.

DISAGREE ABOUT THE LAKE WRECK

Two Train Crews Tell Widely Different Stories at Madison.

Janesville railroad men are a good deal interested in the outcome of the investigation of the wreck on the Lake Monona embankment at Madison. The testimony of the crews of the Northwestern and St. Paul trains which were in the wreck, has been transmitted to the head officials of the roads, and will probably be passed on by the general superintendents. Each crew agreed with the story of their respective engineers, but not with each other. The Northwestern men insisted that their train stopped at the 100-foot post, and that their train was not running more than two miles per hour while the St. Paul train was going ten or twelve miles an hour. The St. Paul crew contradicted this, and could not see how an engine going two miles an hour could pass entirely through a train of thirty-three cars going ten miles an hour.

CRAZY WOMAN AFTER GOV. PECK

Insane Rachel Peterson Taken Back To Beloit Last Evening.

Rachel Peterson, the crazy Beloit woman who created a sensation at Madison, passed through Janesville in charge of an officer last evening. She called at the executive office "to see the governor and inform him that the democrats have ruined the nation and that I am going to be the next president." Governor Peck being in Milwaukee, she poured her story into the ears of Chief of Police Adamson, who decided that although her first statement might seem credible, the latter was out of reason. She became somewhat composed later, and was placed aboard a train for Beloit.

HUBBARD HURT WHEN HE JUMPED

Working on a Ladder and a Train Threatened Him.

James Hubbard was hurt in a peculiar manner at Evansville. He was on a ladder painting a warehouse that stood near the railroad track when he was surprised by a train and was obliged to jump from the ladder to save himself from what he feared would be instant death. He landed heavily and is still crippled by the injuries he received.

NEWS UP IN EVANSVILLE.

(Evansville Enterprise.)

Building is still progressing rapidly in this place, and none need be idle for the want of work, that want to work, and are willing to do what are their hands may find to do and we can have but very little sympathy for those that want improve their opportunities at this time, when the cold storms of winter blow.

The band enjoyed their reception supper at the Central House Friday evening very much, although they arrived in a terrible down pouring of rain. Prof. L. E. Gettle made them one of his characteristic, rattling, good speeches and all went off as merry as marriage bells. Evansville thinks a good deal of its bands, rather more we think than the Janesville fair judges.

The usual large crowds thronged our streets Saturday and one could easily imagine himself upon one of the principal business streets of Chicago.

Don't be afraid to look in at our front window and see the premium dictionaries we are offering to subscribers.

Web. Johnson was a home arrival Wednesday evening, having completed his services for the season as driver of Joe Wonder and other fast trotters. He reports Joe Wonder as being of but little value as a fast horse now.

VALENTINE LIVING ON SMOKE

Janesville Man Has a Great Time In the North.

Richard Valentine, who went north several weeks ago in hopes of finding relief from hay-fever, with which he is afflicted, writes from Rice Lake, that he has been almost suffocated by smoke. His party was in the woods, without communication with the outside world, and were ignorant of the forest fires raging in their vicinity. He writes that he has seen only three clear days since they camped in the woods. He will be home next week.

THINK OF THIS.

Are You Entirely Contented With Yourself?

There is a Good Reason For Your Present Condition.

You Can Better It If You Want to And Very Easily.

There is nothing which keeps a person down so much as poor health. If the nerves are weak, if the stomach, liver, bowels or kidneys fail to do their work properly or for any reason they feel badly they must do something to get well.

Don't wait and learn by bitter experience how dangerous it is to trifle with disease. Read the peculiarly sad experience of Mrs. Reliance T. Henry, No. 21 Ashlen street, West Indianapolis, Ind., and her wonderful recovery.

"Several years ago I was afflicted with catarrh, female weakness and nervousness. I could not sleep nights and was in a fearful condition. My limbs would draw and I would be like ice. I could not lie still a moment and was a wreck. I had no appetite and what little food I ate distressed me.

"I was growing very thin and losing all the color in my face. I came to the conclusion I was going to die. I doctored with the most eminent physicians but received no benefit, and was terribly discouraged. I heard of Dr. Greene's Nervura blood and nerve remedy and the wonderful good it was doing, and decided to try it.

MRS. RELIANCE T. HENRY.

"In a short time I began to improve. I used three bottles and could then sleep well, my appetite was good, my food digested all right and my nerves were strong. I was entirely cured by Dr. Greene's Nervura blood and nerve remedy.

"A friend of mine, Mrs. T. M. Dolan, has also been greatly benefited by this medicine, she says she could not do her own work without it. Another friend, Mrs. Thomas Damon, living on the same street with us, has been wonderfully benefited by it. I advise everyone to use this remedy, its effects on the system are marvelous."

The one medicine in the world which will cure you and make you strong and vigorous is Dr. Greene's Nervura blood and nerve remedy. It is used and prescribed by physicians everywhere, and acknowledged by them to be the best, surest and safest medicine in existence.

Use it and you will be made well. It is the discovery of Dr. Greene, of 35 West 14th Street, New York, the most successful specialist in curing nervous and chronic diseases. He can be consulted free, personally or by letter.

We have sold hundreds of pairs of these shoes. They are made by a certain local factory to sell for \$3.50 a pair, and some houses do get \$3.50 for them, but we don't care to get the earth, so we will let them go at \$2.48 a pair. BROWN BROS. & LINCOLN.

JANESVILLE HORSES COULDN'T WIN FAIR PURSES.

J. C. Chadwick's Kate Phallamont is Favorite at the State Fair Track Today—Vera Capelle Goes a Fast Mile—What the Other Flyers are Doing.

H. D. McKinney's George W. Howe won fourth money in the three-year-old 2:40 class race at Milwaukee yesterday, the best time being 2:22. John C. Chadwick had Bovee K. in the 2:19 pacing class, and got third money, the race going to Vera Capelle in three straight heats, the best time being 2:10, which is the track record in competition. Vera Capelle is owned by Capt'n Tainter of Menominee, and is driven by T. J. Dunbar of Milwaukee who handled her here last June and again in July. In June she went in the 2:30 class and got a heat in 2:19, winning third money. In July she was in the 2:15 class and got fourth money, the best time being 2:13. At Independence she reeled off three miles under 2:13 and has been improving ever since. She is entered in the free-for-all and 2:19 class stake here next week. She is a black mare by Wilton.

Doings of Other Horses.

E. W. Sherman started Virginus in the 2:19 trotting race at Milwaukee yesterday but fifth position was the place he got.

John C. Chadwick started Kate Phallamont, who sold favorite, in the 2:21 trot to-day, and J. O. Gerrity drove E. Carpenter's Dolly H. H. D. McKinney had Robert Koch entered in the 2:22 pacing class, but did not start him.

Ethel A., the pretty little Adrian Wilkes pacer, who won the colt pacing race here last June, was a 10 to 1 favorite at Galesburg yesterday, but made a mistake that landed her behind the flag. Afterward she went a mile in 2:10, equaling the world's record for her age.

Alix reduced the world's record for trotters from 2:04 to 2:03 at Galesburg. She has been a great favorite with Janesville horsemen ever since she trotted the Janesville track as a three year old.

Kissell's Dallas, who was in the Janesville free-for-all pacing race last July, started at Indianapolis yesterday, but did not get a place, Hal Dillard winning in 2:07.

DRESS FOR ELDERLY WOMAN.

She Is Free to Deck Herself With Bright Colors.

In no direction has fashion been more completely revolutionized during the last decade or so than in the dress of middle aged and elderly women. Some years ago it was considered almost fast for a woman over 50 to wear any brighter color than gray or mauve, and her usual attire consisted of black. For a great occasion, such as the wedding of a son or daughter or other near relative, a light gray or mauve gown was purchased, and this took a long

JET CAPOTE.

time in wearing out, being only produced upon special occasions after the one for which it had been prepared. Such colors as blue, pink, yellow and white were completely left out of the category of possibilities for the elderly woman. Since then a total change has been compassed by slow degrees, and at the present moment the woman who has seen half a century is free to deck herself with any colors that she may elect. Nor is it in dress alone that the change has been so great. Our grandmothers used to begin to wear caps at the age of 45, whereas in these days an elderly woman no more thinks of wearing a cap than does her granddaughter. A woman who has the good fortune to possess silver gray or white hair is wise enough to appreciate its beauty and becomingness and to arrange it in such a way as to make the most of it. She chooses small, close bonnets that conceal the hair as little as possible and selects colors calculated to set it off to the greatest advantage. Black and gray velvet, jet and steel cannot be improved upon as millinery materials in such a case, always with the additions of a touch of some decided color like blue, rose or magenta. Gray and golden brown is also often a becoming combination and has the merit of not being common.

An illustration is given of a small jet bonnet suitable for a middle aged woman. The jet frame is trimmed in front with two jet wings and a jet aigret, held in place by a chou of pale blue velvet. The short strings are of black velvet.

JUDIC CHOLLET.

FOR THE COMPLEXION.

An Old Remedy That Is Far Better Than Anything New.

The celebrated Ninon de l'Enclos retained, so history avers, her youthful appearance until extreme old age. She was 80 years old when she died and looked 18. This is hardly to be credited as strict truth, but at the same time doubtless there was some remarkable retention of the charms of youth. The following recipe is for a complexion lotion which, while incapable of performing miracles of rejuvenation, is said to give firmness to the skin and help to keep it free from blemishes, pimples, sunburn and similar disfigurements.

Soak a little soap plant (to be had of any chemist) in two pints of rosewater or elderflower water, whichever you prefer, and to this add some cucumber juice pre-

SILK PETTICOAT.

viously boiled; then put in drop by drop a half ounce of tincture of benzoin. Finally introduce a few drops of tincture of myrrh. Shake and finally bottle. Use daily.

The emulsion looks like smooth, thin cream.

Its perfume resembles vanilla. It may be used instead of soap. It cleanses the face quite as well and never makes the skin red, as soap will often do. The cost of the lotion is insignificant, which is another recommendation.

Among the articles of luxury which are being sold at a reduction nowadays may be reckoned silk hosiery. Some astonishing bargains are to be obtained in these goods, both in black and colors. The woman who wears a medium size in everything is the one who mainly profits by sales of shoes, stockings, gloves and garments. The unusually stout or slender person may search all day for something to fit her and pay the highest price for it when it is found, while her sister of average proportions is suited in half an hour at half the cost for the same quality.

The illustration shows a petticoat of mauve and green striped silk. It is trimmed with two flounces of cream lace, the upper one arranged in points and headed by a puffing of mauve mousseline de sole. Each point is marked by a bow of mauve ribbon.

JUDIC CHOLLET.

A Point Worth Remembering.

Pineapples to be canned need a little cooking in clear water before the sugar is added, or they will be hard, no matter how much they are cooked. In fact, the longer they are cooked with the sugar the tougher they get, and it is the same with quinces. Granulated sugar in the proportion of a pound to three of the fruit is about right for canning.

What Is a Million?

Very few people have a true conception of what 1,000,000 is. The Old and New Testament together contain some 3,000,000 of letters.

WHAT HE'S GOT.

The Difference Between the Senator and the Congressman.

"Once upon a time," remarked a story-telling congressman, "I happened to be doing some campaign speaking with the senator from my state, and one of our engagements was at a small town considerably off the main highway and at a place where I thought a United States senator would be a nine days' wonder, not to say anything about what a plain member of congress might be. We were objects of more or less remark, I am free to confess, and I was feeling rather proud of the combination until I happened to overhear a conversation. I didn't intend to listen, but it happened that several women who had come to hear the speaking met in the hall right in front of my door, and of course the speakers of the day were the topic of conversation.

"Which one's the senator?" asked one.

"That un that's got the whiskers," replied another.

"He don't look like he knowed any more than t'other," was the next comment.

"I reckon he don't," said the third; 'an' neither one don't seem to have any to spare in case they had to sheer it."

"How does he git to be senator ef he don't know more'n the congressman?" asked the third.

"Huh!" sniffed the other, "tain't what a senator knows that makes him a senator; it's what he's got," and then I made a noise to let them know that they must not be giving away state secrets, and the way they went down the hall was a caution."

Are the prejudices which some people cherish against what is good for them? They reason, as our old friend Artemus Ward says, thusly, "So and so has been taking medicine for a long time and isn't any better." They only know of individual cases. Many could be cited, to their astonishment, in which Hostetter's Stomach Bitters has brought about a complete change in the physical condition of persons suffering from general ill health. This stomachic, besides having the decided recommendation of the medical profession, is voiced by the general public as the possessor of qualities as an invigorant and restorative of health not found anywhere else. In bodily trouble caused by the liver, stomach and bowels, in instances where rheumatic tendencies are experienced, and when the kidneys are weak, it is the true resort.

Max—Jack won that Detroit heiress hands down. Jax—Well, how did you expect him to win her—feet up? Max—Cert. He made love to her in the surf.

Brown—What will you take for that bay horse of yours? Smith—I wouldn't take \$200 for him. Brown—I didn't ask you how much you wouldn't take.

Enthusiastic Admirer—Really, you have the most beautiful natural complexion I ever saw in my life. Thoughtless Girl, with surprise—Why, you have never seen it.

Customer—I see you advertise bicycles from ten cents to one hundred dollars. Dealer—Yes, sir. "What kind of bicycles do you sell for ten cents." "Candy ones."

Fogg—Oh, you are too hard on Flimsey. He has his faults, but there is one good thing about him. Dods—And pray what is that? Fogg—He—er—I can't recall it just at this moment.

"To whom are we indebted for this call?" smiled Mrs. Waitabit, as she greeted a good looking man at the front door. "The butcher, ma'am," was the reply. "It's \$9.86. There's the bill."

Hostess, who doesn't know him very well—Professor, there is no clergyman present. I shall have to ask you to say grace. Professor, infidel of long standing—No clergyman? Then let us return thanks in silence!"

"Did you take gas when you had your tooth pulled?" "No; went to a dentist that extracts them without pain." "Was it a success?" "Yes, sir, the preparation he used hurt me so much worse than the tooth pulling that I didn't notice it."

TO INTEREST THE LADIES.

Japanese papers say that the oldest married couple live in their country. The man is 133 years old and his wife 135. The eldest daughter is 103 and the oldest son 105.

There are women who sometimes think on Sunday that they have religion, but when the clothes line breaks down on Monday they find out that they haven't.

Customer—Is your beef very nice to-day? Market Man—Yes, ma'am. "Well, you may give me a few sweepstakes. I have heard my husband speak of enjoying them."

Amelia—I wish there were not so many dry goods advertisements in this paper. Clara—Good gracious, dear, why? Amelia—One hasn't time to read the other matter in it.

FERRIN CASE DEFENDANTS
ALL GETTING PUNISHED.

His Plea of Guilty Brought a Fine and In Default of Payment Thirty Days In Jail—He Will Probably Pay—Murphy Assault Case Has Been Continued.

HARRY BUNDY, one of the Beloit assaulters who has been in jail here for some time awaiting trial, was taken before Judge Phelps this morning. He pleaded guilty to the charge, and was fined \$25 and costs or thirty days in jail, and it is understood that he will pay the fine. He was one of the young men who were mixed up in the Ferrin case.

William Murphy's case was called this morning, when it was continued until October 8. Murphy is charged with an assault with intent to do great bodily harm. The complaining witness is Fredricka Klingsbury, who charges Murphy with assaulting her with a hatchet. The alleged assault occurred in Beloit on July 16.

"The beardless boy who makes crazy pictures for The Gazette" never having had a government position get out from under him suddenly, and never having been censured for abusing his wife, is probably a fit target for those who have. The Recorder has the same engraving outfit as The Gazette and are unable to make even "crazy pictures" with it, so criticism may emanate from the most prominent part of their anatomy, their bump of jealousy.

Miss E. V. CORNELIUS' studio in the Court street church block, is a very popular place for many people desirous of learning music, both vocal and instrumental. Miss Cornelius is a graduate of the Boston conservatory of music and ranks very high as a musician. Her full classes are now being formed. Better join.

The celebrated Colby piano and another piano which we might name are manufactured in Erie, Pa. ELECTION ILLEGAL SALOON MEN CLAIM

PERSONAL LIBERTY LEAGUE
PLAN TO CONTEST IT.

Say The Ballots Were Improperly Prepared and That in One Instance, at Least, the Voter Was Asked "What Ballot He Wanted"—Other Defects Alleged.

No matter how hard the death, members of the Janesville Personal Liberty League propose to die game.

The vote fixing the licenses at five hundred dollars each does not suit, and they will contest the election.

The league held a meeting last night, at which it was resolved to secure counsel and commence proceedings to set the election aside. A number of points are claimed which they insist will annul the election, among them being:

There was no uniformity in the conduct of the election, as the law provides.

There was no secret ballot used.

There was no ballot prepared as the law names.

That a slip or slips of paper purporting to be ballots were in the hands of the ballot clerks, but in many instances, as the league claim, the ballot clerks insisted that the voter make known which ballot he wanted before they would pass him one, thus compelling the voter to announce his intentions to the clerk.

This is charged to be the conduct of one of the ballot clerks in the First precinct of the First ward, where the voter refused to vote on this account.

Wrong Law Used, They Say.

They insist that, while the law providing for such election was passed by the legislature in 1855, the law passed in '89, known as the Cooper law, provides the manner in which all elections shall be conducted, that this election was conducted contrary to the spirit of the Cooper law, but according to the general election laws in force prior to that law's enactment.

"We think we will be able to show that the election Tuesday is illegal, and it will be set aside by the court," said a member of the league this afternoon. "We appointed a committee to secure the services of an attorney to prosecute the case, and I understand that a committee has secured Attorney J. L. Mahoney."

A reporter called on Mr. Mahoney this afternoon, but he would say nothing about the case, only that he had been asked to examine the matter and report to the committee.

City Attorney McElroy insists that while the ballot may not have been strictly in accordance with the general election laws, the conduct was regular, fair and honest, and in his opinion it will stand.

The league, which is composed of the Janesville saloon men, will hold another meeting this evening, to consider the opinion of their attorney.

HEARD WEDDING BELLS.
Garit-Swanke.

John Galt and Miss Mary Swanke were married by Rev. E. H. Pence, of the Presbyterian church, yesterday morning. The ceremony took place at the home of the bride's parents, Mr. and Mrs. Frank Swanke, 456 South Franklin street, and was witnessed by a number of friends of the parties.

ITS MERITS WON.

A teacher of music in Chicago had a pupil who liked the Colby piano the best, but did not dare to say so because the teacher received a commission from the Steinway people. So the pupil had three pianos brought to her house—a Colby, Steinway and another—covered the name and make with a paper and then invited her teacher to try the three, and she would buy the one she (the teacher) decided upon. After trying the three the teacher decided upon one saying, "that is a Steinway, you can't fool me," and when the paper was removed lo, and behold, a Colby stood before her. That settled it. The pupil and teacher both bought a Colby piano. Several such instances could be stated.

Mme. Jules Ferry has had a granite pyramid four metres high erected at the tomb of her husband in the cemetery of Saint Die, Paris. Inscribed on one side in letters of gold is an extract from the will of the statesman, beginning: "I desire to repose in the same tomb as my father and my sister."

In selecting the twenty-five "immortals" whose statues or busts are to be placed in the new Congressional library at Washington, Librarian Spofford has named Fulton and Henry for places inside and Franklin, Irving, Emerson and Hawthorne for places outside the building. These are the only Americans in the list.

The house in which Lindley Murray, the famous grammarian of early American days, was born is still standing about twelve miles south of Harrisburg, Pa. It is a somewhat pretentious log house, with three rooms and a sleeping loft, built on the southern slope of a hill, and facing the Swatara river. Murray's father settled there about 1730.

The Jewish population of London has more than doubled during the past twenty years. It is now estimated as between 100,000 and 120,000.

The first four-track drawbridge in this country has been completed near West Farms, N. Y., by the New York, New Haven and Hartford railroad.

Instead of narrating the fact that a cow, standing upon a railroad track when an express train came along, was cut into halves, a Scottish paper, by an amusing typographical error, reported that: "As the safest way, the engineer put on full steam, dashed up against the cow, and literally cut her into halves."

Some time ago a lot of pennies was received at the treasury department for redemption. Among them was a coin which was rejected. The treasury would not give a cent for it. A clerk in the office redeemed it and gave it to Congressman Johnson of North Dakota, who sent it to the Smithsonian for identification, and later he received word that the coin is of the mintage of the year 234 A. D. and circulated in the time of Emperor Diocletian. It is a very valuable relic, worth many times its weight in gold.

GRAINS OF GOLD.

The power of pleasing is founded on the wish to please.

People who hunt for faults seldom find anything else.

Slander not others because they have slandered you.

MEN RAN FOR \$200 AT THE RACE TRACK

RAY BOOTH AND FRED SMITH
MEET HERE.

The Former Is From Monroe and the Latter From Edgerton So This City Was Selected as Neutral Ground—Friends Back Both of Them Liberally.

Edgerton and Monroe sporting men massed in Janesville today with five dollar bills tied in their button holes to see a foot race between Fred Smith of Edgerton and Ray Booth of Monroe. Smith works for F. W. Coon of the Edgerton Tobacco Reporter and Booth is the son of the proprietor of the Monroe Sentinel. Each carries the idea that they can beat the other and both are sprinters of reputation. They agreed to race for \$100 a side and Janesville was chosen as neutral ground upon which to settle the thing. Both men are liberally backed by their friends. Both sides met at the Hotel Myers this afternoon and after dinner the details of the race were arranged and the party went up to the fair grounds.

Some time was wasted over formalities when they got there and at 4 o'clock they got away Booth winning in 10 1/2 seconds.

Will Dance at Clear Lake.

A very swell social dance will take place at Clear Lake Inn, Friday evening of this week. Smith's full orchestra, of this city, has been engaged for the occasion, and quite a number will attend from this burg. F. A. Dennison, manager of the hotel, is making great preparations to entertain all, and a jolly good time is promised.

Not Like Hard Times.

Those who are crying "hard times" can have their minds relieved of all such ideas by visiting F. C. Cook & Co.'s jewelry store and take a peep at the elegant line of pearl and diamond pendants, diamonds, enamel and pearl wreath pins, scarf and stick pins they have received in anticipation of a big season's trade.

Big Entertainment Saturday.

We will endeavor to give our customers one of the grandest times they ever had, next Saturday. The principal feature of the day will be "cutting prices" on high grade furniture. Come and join in the festivities and see the prices fall. We discount any price named. FRANK D. KIMBALL.

Block Coal Operators Will Close.

A committee of block coal operators is in conference with the Chicago & Eastern Illinois officials at Chicago now endeavoring to secure a reduction in rates.

Farmers Lynch a Horse Thief.

GUTHRIE, O. T., Sept. 20.—At Lincoln, a small town about 100 miles from here, Perry Cook, the leader of a gang of horse thieves, was lynched. He had in his possession half a dozen stolen horses, which fact so enraged the farmers that they hanged him to a tree without giving him time say a word.

BRIEF BITS OF HUMOR.

Sam Johnson's "at Home."

Sam Johnson, an Austin colored man, who keeps the sheriff busy hunting him up, is once more an inmate of the Travis county bastille. Jim Webster, a chum of the accused, called at the jail to console his friend.

"What do you want here?" asked the jailer in a gruff voice.

—Arkansas Traveler.

"I am sensible of the honor you do me, Mr. Spoonamore, in the proposal of marriage you have just made," said the young woman, with a slight curl of the lip, "but circumstances over which I have no control will compel me to decline the honor." "What are those circumstances, Miss Marigold?" fiercely demanded the young man. "Your circumstances, Mr. Spoonamore."

MYSTERIES!

The Nervous System the Seat of Life and Mind. Recent Wonderful Discoveries.

No mystery has ever compared with that of human life. It has been the leading subject of professional research and study in all ages. But notwithstanding this fact it is not generally known that the seat of life is located in the upper part of the spinal cord, near the base of the brain, and so sensitive is this portion of the nervous system that even the prick of a needle will cause instant death.

Recent discoveries have demonstrated that all the organs of the body are under the control of the nerve centers, located in or near the base of the brain, and that when these are deranged the organs which they supply with nerve fluid are also deranged. When it is remembered that a serious injury to the spinal cord will cause paralysis of the body below the injured point, because the nerve force is prevented by the injury from reaching the paralyzed portion, it will be understood how the derangement of the nerve centers will cause the derangement of the various organs which they supply with nerve force.

Two-thirds of chronic diseases are due to the imperfect action of the nerve centers at the base of the brain, not from a derangement primarily originating in the organ itself. The great mistake of physicians in treating these diseases is that they treat the organ rather than the nerve centers which are the cause of the trouble.

Dr. FRANKLIN MIXES, the celebrated specialist, has profoundly studied this subject for over 20 years, and has made many important discoveries in connection with it, chief among them being the facts contained in the above statement, and that the ordinary methods of treatment are wrong. All headache, dizziness, dullness, confusion, pressure, blues, mania, melancholy, insanity, epilepsy, St. Vitus dance, etc., are nervous diseases no matter how caused. The wonderful success of Dr. MIXES' Restorative Nervine is due to the fact that it is based on the foregoing principle.

DR. MIXES' RESTORATIVE NERVINE is sold by all druggists on a positive guarantee, or sent direct by Dr. MIXES MEDICAL CO., Elkhart, Ind., on receipt of price, \$1 per bottle, six bottles for \$5, express prepaid. It contains neither opiates nor dangerous drugs.

EVERYTHING SEEMS WRONG

to the dyspeptic. The world is upside down; the times are out of joint; he's ready to turn his back upon his best friend.

Now, the thing that oftenest is wrong with dyspeptics, is their choice of a remedy. There are drugs and medicines on the one hand—the Carlsbad Sprudel on the other. They can't both be right; there's too much difference in their methods and in their results.

Carlsbad—the waters of the Sprudel Spring at Carlsbad have been curing dyspeptics for hundreds of years. Curing them. No remedy in the world has been so thoroughly tried and proved, in all digestive disorders, stomach troubles, lack of appetite, or perverted nutrition. And a little of the genuine Carlsbad Sprudel Salt to the first tumblerful of the water, if you desire to increase its purgative action.

Do not be imposed upon by unscrupulous dealers who will sell you a mixture of Seidlitz Powder or Glauber Salt as "Improved Carlsbad Salt" or "Artificial Carlsbad Salt," "German Salt," or other names. Insist upon the genuine article, which must have the signature of "EISNER & MENDELSON CO., Sole Agents, New York," on every bottle.

Harper's Pictorial War History.

It was the intention of the publishers in issuing this history to complete it in 26 parts but so many **Fine Illustrations**, that were not originally planned for, have been added to the several parts as they came out, that it has been found necessary to extend the work to one more part making twenty-seven in all. This last part will conclude with a very complete and carefully prepared index of the whole work, by the aid of which any person or event in the entire history can be referred to at once. The index is one of the most valuable parts of the whole book, and doubles its worth as a practical history of the war.

We explained Reciprocity yesterday, today we dwell on ENTERPRISE. Being connected with vast interests in the mercantile field in different parts of the country, we are enabled to take up immense quantities of goods when offered low enough at cash prices, and thereby place the goods on our counters at a saving of from 20 to 33 per cent. We make the bulk of our goods, thereby doing away with the middle-man's profit and enabling us to sell to the consumer at One Profit from maker to wearer and thus avoid all damage sales from glass being broken by boiler explosions.
